## OUR 20 YEAR LIMITED WARRANTY

### **Fencing**

All RMS fencing products and installation are warranted against defects in material and workmanship for 20 years from the date of first use.

#### **Graffiti/Vandalism**

Graffiti can be removed from concrete fences by scrubbing and or pressure washing or staining over with the original color stain if the concrete had been stained previously. Wood paneled fences can be treated in the same manner and for stubborn stains/graffiti can be sanded and re treated.

Concrete fencing by its nature, is very difficult to vandalize and the "four by four" lumber that is used in the hybrid wood concrete fence are also next to impossible to inflict damage on.

#### **Sun/Cold/Discoloration**

Performance of both concrete and pressure treated lumber in the field is well proven. Discoloration in lumber is rare and further minimized with pressure treatment.

#### **Salt Scaling Resistance**

Our concrete is designed to 35MPa, MoT specifications for strength, durability and resistance to elements and chemical attacks. Resistance to salt scaling is also enhanced using stain. Lumber is not affected by salt scaling.

#### **Wind Loading**

Wind loading is often addressed on the technical drawing.

This warranty shall be interpreted under the laws of the Province of British Columbia.

**NO DISTRIBUTOR, DEALER, A SALES REPRESENTATIVE OF A DEALER/DISTRIBUTOR OR A RMS EMPLOYEE HAS THE AUTHORITY TO CHANGE/MODIFY THIS WARRANTY EITHER IN WRITING OR ORALLY IN ANY RESPECT. THIS LIMITED WARRANTY IS NOT ASSIGNABLE OR TRANSFERABLE.**
